

## LEAVES IT ALL TO CONGRESS

Special Message on Panama Canal To Be Sent by Roosevelt.

## BOTH HOUSES MEET

Long Session Opens at National Capitol in City of Washington Today.

## PAYNE STORY DENIED

Washington, Jan. 6.—President Roosevelt will probably send to congress a special message containing the offer of the Panama Canal Company to sell its property to the United States for \$10,000,000. The message will be merely a letter of transmittal and will not express an opinion but will leave the entire subject to the determination of congress.

Payne Story Denied  
Officials of the Interior Department deny the story that Roosevelt has ordered an investigation of the department, on the allegation that Henry C. Payne, recently appointed postmaster general, was interested in the Florence Mining Company, which seeks to obtain a lease in an Indian reservation in Utah.

Appeal to Supreme Court.  
M. D. Munn, associated with the attorney general of Minnesota, in the proposed proceedings against the Northern Securities Company, arrived in Washington this morning for the supposed purpose of asking the Supreme court for permission to file a motion for a mandamus against the railroad interested in the merger.

McKinley Memorial Arch.  
The McKinley National Memorial Arch association will present a bill to congress this week which, if passed, will pledge the government to erect a suitable monument to the memory of the martyred president. When the senate convened today it adjourned almost immediately out of respect for the late Senator Sewell. After the passage of resolutions of regret the house was adjourned.

For the Army Canteen  
Kern of Illinois introduced a bill in the house today directing the secretary of war to re-establish the army canteen and the post exchange. The bill is forty-one words long.

The supreme court today affirmed the judgment of the supreme court of Ohio in the ouster proceedings against the Capital City Dairy Co., a maker of oleomargarine. The decision of the lower court was against the company. Today's decision upholds all the state laws which prohibit the sale of oleomargarine unless it is conspicuously labeled and as such delivered to customers.

New Democratic Policy  
To give the Philippines their independence is to be the democratic policy in the senate. This afternoon the republicans of the Philippine committee will meet to consider the new bill providing a tariff on goods coming from and going into the Philippines, which has been under discussion for a week with Secretary Root.

The Democratic members of the committee will also meet and formulate a policy. They intend to declare in favor of a resolution similar to the Teller resolution on Cuba, which was adopted just before the war with Spain, declaring it not to be the purpose of the United States to exercise any permanent control over the Philippines, but to leave the government of the islands to the inhabitants thereof.

Shaw Makes Good Impression  
Governor Shaw has made a decidedly good impression at the national capital. The most important fact that has developed during his conference with President Roosevelt and Secretary Gage is that the new secretary of the treasury has come here without any schemes, without any pet plans to put into operation, that his administration of the great fi-

naical department is not to be marked by any innovations or experiment and he will endeavor to "continue absolutely unbroken" the policy of his predecessor.

Treaty With Denmark  
Washington, Jan. 6.—An extradition treaty was signed between the United States and Denmark today.

Kitchener Reports Important Capture.  
London, Jan. 6.—Lord Kitchener reports to the war office, under date of Johannesburg, Jan. 3, as follows: "Bruce Hamilton, operating to the eastward of Ermel since Dec. 29, has captured 100 prisoners, including Gen. Erasmus."

Shortage in Postoffice Accounts.  
New York, Jan. 6.—A shortage of \$2,200 has been discovered in the postoffice at New Rochelle, and Charles B. Freeman, the chief clerk, is missing. Freeman had been connected with the postoffice for eight years.

## IS NOT OPPOSED TO OLEOMARGERINE

Henry C. Payne Denies Several Stories Put in Circulation About His Intentions.

Milwaukee, Jan. 6.—Henry C. Payne simply sat back in his chair today and laughed when his attention was called to the Utah story that he, with others, were trying to break into Utah reservation to look for a lost mine.  
"I have not thought of that venture for over two years," he said.  
"I cannot take notice of all the nonsensical stories which are being circulated about me," continued Mr. Payne. "I see, according to a Washington dispatch, the friends of the oleomargarine bill are to endeavor to postpone action on my appointment in the senate because I was active in opposition to an oleomargarine tax and that I am classified with the oleomargarine forces. Why, I have no interest for or against oleomargarine bills, and have not had for the last sixteen years. I have not spoken to a member of congress on the subject for the last fifteen years and have no interest whatever in that industry."

## TELEPHONE LINES TO BE COMBINED

Madison, Wis., Jan. 6.—A consolidation of the independent telephone lines in the vicinity of Stevens Point is proposed by the Wisconsin Central Telephone companies of that city which filed articles with the secretary of state today. The capital stock is two hundred thousand dollars and the incorporators are A. L. Hutchinson, H. G. Carter and E. H. Jones.

## TAKE UP CAUSE OF BOERS.

William S. Bryan and Mayor Tom Johnson Spoke at Cleveland.

Cleveland, O., Jan. 6.—Four thousand people attended a pro-Boer meeting in Gray's Armory Sunday afternoon. W. J. Bryan, who was the guest of Mayor Johnson, was invited to speak, and both he and the mayor accepted. The principal address was by John J. Lentz, The Rev. August Franz, a local Reformed Lutheran clergyman, also spoke. When the formal speeches of the afternoon were concluded Messrs. Bryan and Johnson were called upon. Mr. Bryan said that he was in entire sympathy with the intent of the meeting, enlarged the fighting south African farmers, and urged them to continue the struggle. He said he was glad the war had cost England so dearly and that the disastrous cost in money and life would be a much needed lesson for the English government, because it would teach, and has already taught a lesson that will not be soon forgotten. Mayor Johnson also spoke briefly and said that he was in full sympathy with the intent of the meeting and expressed similar sentiments to those expressed by Mr. Bryan in that the English people generally are opposed to the war. A resolution of great length was passed and will be sent to the President of the United States.

## CHEESEMAKERS OF BADGER STATE MEET IN MILWAUKEE THIS WEEK

Progress of This Industry in Wisconsin Has Been Marvelous—Green County Center of Trade.

Milwaukee, Jan. 6.—The tenth annual meeting of the Wisconsin Cheese Makers' association, the largest organization of its kind in the United States and probably in the world, will begin Wednesday morning in the convention rooms of the republic house. The meeting will continue three days, and an interesting programme has been arranged.  
It will be educational in its way and the discussions on the most improved methods of cheese making, domestic and foreign, and allied subjects, will be an important feature of the convention. Speakers of national reputation have been engaged at considerable expense, to address the meeting, and men that are continually experimenting and investigating along dairy lines will be heard.  
The convention held in Madison last year was the largest in the history of the association, and indications point to an increased attendance at this one.

## GEORGE N. WISWELL NEAR DEATH; CRITICALLY ILL WITH PNEUMONIA

Physicians Hold Out Little Hope for His Recovery—One of the Best Known and Most Popular Politicians in the State.

Milwaukee, Wis., Jan. 6.—George N. Wiswell, of this city, reported in a dispatch from Washington Saturday as the choice of Henry C. Payne as fourth assistant postmaster general, is near death at his home, the result of an attack of pneumonia.

Mr. Wiswell has been sick with pneumonia for three weeks. It seemed that he was on a fair way to recovery. Saturday the disease took a turn for the worse. While entirely recovered from the effects of his attack of pneumonia a weakness of the heart makes his condition critical.

A consultation was held yesterday, at which were present Dr. Arthur R. Edwards and Dr. S. G. West, of Chicago and Dr. H. B. Ogden and Dr. Wilmut of this city.

"It was agreed," said Dr. Miller, who has had Mr. Wiswell under his care, "that Mr. Wiswell's condition is critical, and such that but little can be done for him."  
The Chicago physicians returned to that city last night. Mr. Wiswell is weaker this morning than he was yesterday, and little hope of his recovery is entertained.

Mr. Wiswell was born in La Fayette, Walworth county, Wis., July 19, 1852, and was educated in the district schools. Afterward he learned the trade of a tinsmith and plumber and engaged in the hardware business which he followed for two years.

In 1866 he was elected sheriff of Walworth county and during his term he founded the sheriff's organization of Wisconsin. He was elected secretary of the organization. He was appointed United States marshal for the Eastern district of Wisconsin by President Harrison in 1883, and held the office until May, 1893. He was made assistant sergeant-at-arms of the national convention in Chicago, in 1888, again in 1892 in Minneapolis, and again in St. Louis in 1896.

J. H. Manley of the republican national committee recognized Mr. Wiswell's ability in this direction in 1900, and appointed him sergeant-at-arms of the republican convention in Philadelphia.

Mr. Wiswell is a member of the Masonic order, the Knights of Pythias, the Odd Fellows, the Hoo Hoos and the Loyal Legion. He is also a member of the Country, the Calumet and the Deutscher clubs of this city.

He married Clara M. Perry, daughter of John A. Perry of Elkhorn, in 1873, and there are three daughters.

## KIPLING STIRS UP GREAT BRITAIN

Sensational Philippic on the Shortcomings of the English Empire, in the Times.

London, Jan. 6.—Rudyard Kipling has stirred the British empire as it has never before been stirred by a poet, except possibly by himself with "White Man's Burden." He appears today in the guise of a critic as bitter as England's most venomous continental enemy, with the added weight of the best of his marvelous poetic thought. The knife is mercilessly applied to Britain's sorest spot, the war in South Africa, which is used as a text for the enumeration of many of the nation's alleged shortcomings.

The most sensational utterance in this most sensational philippic is a demand that the policy of conscription be at once put into force throughout the kingdom. Welcome as this may be to the officials of the war office, who have seen the army's ranks steadily thinned, and who have lately been compelled more and more to turn to the colonies for recruits, it is a measure which the government will never adopt except under the direst necessity, because of the certainty of the popular revolt the instant such an order is issued.

Kipling's chosen medium is the Times, and never in recent years has that veteran organ come nearer to proving its right to its one-time title of "The Thunderer." That such an arraignment of the government, and through it of the nation at large, should appear in this, of all papers, is almost as amazing as the poem itself. It has become a political as well as a public sensation and its consequences may be far reaching.

## MR. KIDD TAKES FOOD

There is No Perceptible Change in the Condition of the State Bank Examiner.

Prairie du Chien, Wis., Jan. 6.—There is no perceptible change in the condition of State Bank Examiner E. J. Kidd. Aside from the fact that he took a little nourishment today, his condition remains about the same.

## A. P. WATERMAN NEAR THE END

Death of Old Citizen of Beloit Is Believed Imminent

Beloit, Wis., Jan. 6.—A. P. Waterman, late acting treasurer of Beloit college is in a dying condition. He has been ill for several weeks, and today is failing fast. Mr. Waterman is 83 years of age. He celebrated his sixty-first wedding anniversary last week. Mr. Waterman has been a resident of Beloit fifty years and has ever been an influential citizen.

## TWO BIG ENGLISH STEAMERS FOUNDER

Liverpool, Jan. 6.—The steamers Alfonso and Bulvo Espanola are reported collided in the fog today one hundred miles south of Finister. Both steamers were foundered. All on board the Alfonso with the exception of her captain were lost. The Alfonso had nineteen men on board.

## SIX HORSES BURNED

A Fire Destroys Several Barns in Evansville—Hay and Grain Are Also Destroyed.

Evansville, Wis., Jan. 6.—Fire destroyed several barns in this city at noon yesterday, belonging to N. T. Bryan. Six horses perished and several tons of grain and hay were burned. The loss is about \$2,500.

## HANNA GETS SPEAKER.

Foraker's Force Is Routed in Ohio House Caucus.

Columbus, O., Jan. 6.—Senator Hanna's forces overthrew the cohort of Foraker Saturday in the fight for control of the house of representatives by a vote of 38 to 30 in the republican caucus nominated W. S. McKinnon as the next speaker. Aaron E. Price, the Foraker candidate, rose at the end of the desperate battle and nominated Hanna for re-election to the United States Senate, two years hence, declaring that his own vote as influence should be exerted toward Hanna's victory. There was no quarter given by either side to the contest in the house caucus and no relaxing of the fight till Hanna had secured all the offices, Foraker getting not even a clerkship. The caucus lasted three hours.

## PRINCESS LOUISE HAS GONE INSANE

The Eccentric Daughter of King Leopold of Belgium, Who Has Been a Prisoner.

Berlin, Jan. 6.—Princess Louise, the eccentric daughter of King Leopold of Belgium, who was divorced from her husband, Prince Philip of Saxe-Coburg-Gotha, and who has been held practically a prisoner in a retreat near Dresden for the last two years, has been pronounced hopelessly insane.

Her daughter, Princess Dorothea, was married to Ernest Gentlicher, Duke of Schleswig-Holstein, brother of the present Emperor of Germany and her sister, Princess Stephanie, was the wife of the Archduke Rudolph of Austria, who committed suicide.

## SERIOUS CHARGES AGAINST OFFICERS

Capt. Benoits of the French Bark Max, Which Sunk the Walla Walla, Explains.

San Francisco, Jan. 6.—Capt. Benoits of the French Bark Max, the vessel which collided with the ill-fated Walla Walla and which was towed into port last night in a badly disabled condition, makes serious charges against the officers and the lookout of the Walla Walla. He claims the Max's lights were burning bad, and that he could see the Walla Walla a long time before the collision. Also that he Walla Walla paid no attention to the Max's signals. He defends his failure to stand by the sinking vessel on the ground that all his men were compelled to man pumps and close the water tight compartments. He intimates that the lookout on the Walla Walla was in a drunken sleep when the collision occurred. Capt. Hall of the Walla Walla denies Benoits' charges. It was against all rules of the company to have liquor on board.

## OHIO GENERAL ASSEMBLY

Columbus, O., Jan. 6.—The seventy-fifth general assembly convened this afternoon. The inauguration of Gov. Nash for the second term will take place next Monday. One week will be re-elected in joint session. From Wednesday Senator Foraker

## CRUDE COUNTERFEIT BILLS.

Washington, Jan. 6.—Chief Wilkie of the secret service has sent out notice of the circulation of a silver certificate, of the series of 1899, check letter C, with Lyons register and Roberts treasurer. It is a crude counterfeit, the work on "Washington" not being engraved, there being no silk fibre in it, and the back of the bill being printed upside down.

## DEATH LIST IS NOW 32.

San Francisco, Jan. 6.—The French bark that sank the Walla Walla arrived in port last night. She had no survivors of the sunken steamer on board. This removes the last chance to reduce the missing list of forty-two. The bark's officers say their boat was in too great distress itself to give assistance.

## DENVER STARTS TO FIGHT CRIME

Citizens, Aroused by Attacks on Women and Children, Pledge Themselves To Protect Lives.

Denver, Colo., Jan. 6.—Denver inaugurated a crusade against crime yesterday afternoon, appointed a vigilance committee to patrol the city, and over 3,000 men pledged themselves to arm and put an end to the crimes which have aroused the community in the last few months.

A great mass meeting was held this afternoon, and after a review of the crimes recently committed the men present organized themselves under the name of the Denver Vigilantes and elected E. C. Carroll, president.

It was decided to place a street patrol out every night to supplement the regular police department, which has proved unable to cope with the criminals, and the understanding is that any person caught in any hold-up or attack on women or children shall be tried only by Judge Lynch.

For over a year Denver has been infested with thugs and thieves. Women have been attacked in their own homes and on the streets robberies and hold-ups have been of almost daily occurrence. The result has been that the citizens are becoming afraid to allow their families to stir out of doors at night. The grand jury was expected to take some action, but retired without acting in the matter and the people became aroused.

Miss Grace A. Wright has returned to her duties in the high school at Black River Falls after spending her holiday vacation in this city.

## FEUDS SPLIT STONE CAPTORS

The Brigands Are Now Divided Into Two Hostile Factions.

## TRYING TO DESERT

Bandits Are in Turkish Territory, and Are Harassed by the Natives.

## NO DIRECT NEWS YET

Constantinople, Jan. 6.—Serious trouble has broken out among the brigands holding Miss Stone captive, who are now in Turkish territory, and they are divided into two hostile bands. Some of the brigands are reported to have deserted and are attempting to reach Bulgarian territory. The inhabitants of the country have begun to harass the brigands in an effort to drive them into another locality. Much anxiety is felt here with regard to the outcome of these developments.

The American legation here has not yet received news from Garguilo, the dragoman of the legation, who left Salonica for the interior the latter part of last month, with the purpose of meeting Miss Stone's captors. Members of the legation say the rumors of Miss Stone's release are quite unfounded. No direct news has been received from the American captive since Nov. 13, the date of the last letter from Miss Stone to Mr. Dickinson, consular general at Constantinople, who was then acting as diplomatic agent of the United States at Sofia.

## RUSTLER HAUNT WILL HAVE TO GO

Hole-in-the-Wall in Wyoming to Be Enlarged by State Authority So That Wagons Can Pass.

Casper, Wyo., Jan. 6.—The County commissioners will appropriate money with which to blow out a portion of the famous and notorious Hole-in-the-Wall. At present the entrance to the alley is so small that wagons cannot pass and a portion of the red wall will be blown away and the roadway widened.  
The wall is a huge pile of rock, rising to a height of several hundred feet and extending several miles. Its sides are perpendicular in places and there is only way to enter the valley.

In the early days when cattle rustlers and outlaws infested central Wyoming they used the Hole-in-the-Wall Valley as a rendezvous, the stolen cattle being driven through the narrow crevice. Once inside, the thieves were safe, and while one or two outlaws guarded the entrance the brands were changed and the stock made ready to ship. As late as 1897 it was used as a hiding place for criminals.

## WAR OF THE BENCH ON IN BROOKLYN

New York, Jan. 6.—The war of the bench is still on in Brooklyn. Four magistrates remain barricaded in their court rooms and are prepared to maintain their rights by force. Some of them got their food supply yesterday by the aid of ropes which were lowered to the street, friends attaching baskets of food. The legislature will probably take hold and settle the matter by allowing Mayor Low to make new appointments.

Chas. Shaffer, who races Getts of Rockford for a purse and the championship at the rink Wednesday night is an all-around athlete and captain of the new polo team. The man that beats him must be fast.

## STERN MEASURES AGAINST REBELS; NO MORE LENIENCY FOR FILIPINOS

General Bell Determined to Subdue Insurrection in Batangas—Peace Advocates Aid the Rebels.

Manila, Jan. 6.—General J. Frank Bell is conducting a vigorous campaign in Batangas Province. Every available soldier is in the field. The columns under the command of Colonel Wint and Dougherty are doing excellent work and driving the Filipinos in all directions. A number of the latter are fleeing to Tayabas Province, where the native constabulary are rendering valuable assistance in capturing men and rifles.

The advocates of peace at Manila deprecate the stern measures employed by General Bell. In reply General Bell says that these peace advocates have had numerous opportunities to use their influence, as they have been given passes through the American lines almost for the asking, and that it has been afterward proved that they often only went through the lines for the purpose of assisting the insurrection. General Bell says that the best peace method now is a rigorous warfare until the insurrection is completely subdued.

Conditions in the island of Samar are still unsatisfactory, owing to the difficulty of finding the insurgents. Captain Schoeffel of the Ninth Infantry, who was wounded in a severe hand-to-hand fight last month at Dapdap, Samar Island, between eighteen men of Company E of his regiment and a large force of bolomen has practically recovered from the effects of his injuries.

In an official report of the encounter in which Captain Schoeffel was hurt it is said that Schoeffel killed the three men before he received his wound and that he remnants of the detachment of eighteen men were saved by his personal courage and daring.

The civil authorities say that the island of Leyte is now perfectly peaceful. On the other hand, the military authorities consider Leyte to be dangerous on account of its proximity to Samar, if for no other reason.

## LODGE HAS NEW CONSULAR BILL

Massachusetts Senator Pushes Measure to Reorganize the Service.

MERIT SYSTEM IS USED.

Examinations Provided For, and Men Are to Be Classified as Soon as Possible—Text of Measure Is Sent to the Committee.

Washington, D. C., Jan. 6.—Senator Lodge of Massachusetts has re-introduced and had referred to the senate committee on foreign relations, of which he is one of the most active and influential members, a carefully matured bill for the reorganization of the consular service. This measure, which failed of action in the last congress because of the great press of other urgent legislative business, has now, under Mr. Lodge's powerful patronage, a more excellent prospect than ever of reaching the statute book. The junior senator from Massachusetts has long been known as an earnest and consistent champion of the merit system of appointments and promotions in the public service, and his already notable contributions to the extension of that system now promise to be magnified by his successful efforts to establish the federal consular service on a basis of fixed tenure and personal worth.

Provisions of the Bill.

Mr. Lodge's bill reorganizes and re-grades the consular offices of the United States and abolishes the fee system, except for consular agents, who are to receive one-half of the fees they collect up to a maximum of \$1,000 a year. Consular officials proper are to be divided into four grades of consuls general and six grades of consuls. Commercial agents and consular clerks are to become consuls in the classified grades, but vice consuls general, deputy consuls general, vice consuls and deputy consuls are to be appointed as heretofore, except that, if the President sees fit, he may designate consuls of the fourth, fifth, and sixth classes to perform these substitute functions. There are to be not more than two consuls general of the first class, at \$10,000 a year; eight of the second class, at \$8,000; thirteen of the third class, at \$6,000; thirteen of the fourth class, at \$5,000; thirty-seven of the fifth class, at \$4,000; thirty-five of the sixth class, at \$3,000; sixty of the seventh class, at \$2,500; forty of the eighth class, at \$2,000; thirty of the ninth class, at \$1,800.

Service Classified Within Year.

Within a year after the passage of the act the service shall be classified and the present incumbents assigned to the various classes as nearly as possible in accord with the salaries they now receive. Within two years from the passage of the act these incumbents are to be recalled gradually for examination, and those who fail to qualify are to be dropped from the service. For new appointments to the sixth class civil service examinations are to be conducted by a board consisting of the secretary of state, some consul general, or consul designated by the President, and three members of the United States civil service commission. Any one who has served two years in the classified force in the state department shall be eligible for appointment without examination to a consulate of the fourth, fifth, or sixth grade; and consul generals or consuls may be detailed to duty in the state department. After twelve months of service no consul shall be discharged except for cause stated in writing, and any consul so discharged shall have the right to appeal to a revisionary board. Five inspectors of consulates are also to be appointed at salaries of \$4,000 a year.

Two Languages for World.

Paris, Jan. 6.—All systems of universal language having failed, a French professor, M. Driac, has originated a scheme which he believes will fill the bill. He proposes to make the study of English compulsory in all French schools without exception, and French in all English schools, thus covering the world with two languages. The idea is attracting attention in high quarters.

Rev. Dr. Joseph Pullman Dead.

Stamford, Conn., Jan. 6.—Rev. Joseph Pullman, D. D., brother of the palace car inventor, George M. Pullman, presiding elder of the New York East conference, and well known to the public because of a suit for \$2,000 brought against him by Miss Jane May, the actress, for alleged slanderous utterances in the pulpit, is dead.

Oath to Retire—Jan. 23.

Washington, Jan. 6.—Lyman J. Gage's resignation as Secretary of the Treasury will take effect Jan. 23. Mr. Gage will remain in Washington long enough to assist his successor in getting acquainted with certain treasury matters pending, and beyond that has nothing to say at this time about his future plans.

Airships to Contest.

St. Louis, Mo., Jan. 6.—The princely prize of \$200,000 has been offered for the successful operation of a dirigible airship at the world's fair of 1903. The exposition managers decided to-day to make the award the feature of the first aerial tournament ever held in the world.

# **IMTEMPERATE DISCUSSION.**

Bishop Potter and Dr. Rainsworth of New York, two eminent divines, made themselves notorious the other day by attacking the Woman's Christian Temperance Union, and the prohibition party.

Dr. Rainsworth is reported to have said of the former: "They are good women, and yet doing the devil's work," while the bishop is said to have denounced the latter as "an impudent fraud."

There are many good people who are not in sympathy with some of the methods employed and endorsed by the W. C. T. U. workers, and many more who regard prohibition in state and national politics, as impractical and fanatical, but there are numerous kinds of intemperance, and among the most common is intemperance of speech.

The reverend gentlemen were evidently disgusted with the lack of intelligence and common sense displayed by temperance workers in New York. They doubtless felt that it was open to severe criticism, and yet they can hope to accomplish but little by repelling this class of workers.

The sin of intemperance and excess is a glaring sin. The innocent sufferers are the women and children of the land, and it is not at all surprising that the mothers and wives of men who are lost to themselves in an appetite that knows no control, should rise in the strength of righteous indignation and demand a remedy.

It is perfectly natural that men of single ideas, bent on reform, should discover in the drink habit the one and only great evil of the age, and attempt by erratic measures to control it.

The women are entitled to sympathy and help as far as their work is practical, and much of it is.

The reverend gentlemen have made a mistake and the intemperance of their talk is simply another kind of excess that needs controlling. If they were addicted to drink and possessed the same ungoverned spirit that marks their utterances, they would be sots of high order. There is something in the Good Book about men who bridle their tongues, that might be studied with profit, even by a bishop.

# **UNIVERSAL PROSPERITY.**

Henry Clews, the noted New York banker and financier, gives a summary of the year in his letter of Dec. 28. After stating some facts in regard to conditions, he says:

"There is but one explanation for such a situation, viz., that the United States has just passed through one of the greatest bursts of national development which have always occurred at very well defined periods, and which have usually been termed 'booms.' This particular 'boom,' which began with the defeat of Mr. Bryan in 1896, has been prominently characterized by extraordinary industrial activity. The growth of manufacturing enterprise has many times exceeded the growth of agriculture, and we are rapidly changing from an agricultural to a manufacturing nation. With our magnificent mineral resources, with unequalled facilities for transportation, with an unlimited supply of capital to aid enterprise, with a better supply of skilled labor than any competitor, with an unrivaled capacity for organization and the use of machinery, all backed with an abundance of energy, brains and opportunity; with all these requisites in plenty, is it surprising that our situation is the wonder and envy of the world?"

He cites the fact that while our exports show a slight falling off that it is due to decline in oil and copper, and to the increased demands in the home market for iron products.

Every railroad in the country is practically relaying its tracks with heavier iron, building new bridges and new terminal stations to meet increased demand. The Pennsylvania Central is contemplating an expenditure of \$40,000,000 on their New York station alone.

Sky scrapers by the score contribute many times to the capacity of single streets, and all of these heavy improvements, create a brisk demand for iron and structural steel.

He regards the action of the present session of congress as vital to continued prosperity, and recommends friendly trade relations, wherever practical.

He thinks that the top notch in values has been reached and that a gradual decline to a more substantial basis is desirable, and may be expected.

The present year will doubtless witness some radical changes. An era of speculation has been a feature of the good times, and many enterprises, vulgarly called 'hot-air schemes,' have developed. When the day of final settlement comes, and that will be in the near future, heavy losses will follow.

This does not necessarily imply a panic, because the money invested in this class of enterprises is largely

speculative capital, and has not been drawn from legitimate channels. The outlook for the year is wholesome, and men engaged in business have a right to anticipate a good year and they should take every advantage of it.

The embarrassment of the Everett-Moore syndicate, with capital stock of \$130,000,000, is one of the developments of the new year. The seven Cleveland banks that are so largely interested, will doubtless succeed in placing the concern on a sound financial basis.

The new Milwaukee passenger station will doubtless be built during the coming summer. The improvement is badly needed to accommodate increased passenger business.

Governor Shaw, of Iowa, is wise in refusing to be interviewed. Many good men have met their Waterloo by indiscriminate talking for publication. When the new secretary outlines his policy it will be over his own signature.

The confirmation of Henry C. Payne as postmaster general, may meet with some opposition in the senate, on account of his attitude on the cleomargarine bill. Mr. Payne has public sentiment with him, and the senate will hardly feel warranted in hanging up his appointment.

The fight now on in the ranks of the republican party in Ohio, while not similar to the Wisconsin muddle, is a disgrace to the party. Family quarrels are never noted for glory, and party contention is of the same order.

The country press has been unduly exercised over a late ruling by Third Assistant Postmaster General Madden. The ruling bars from postal privileges a certain class of publications that are used for advertising purposes.

The Mineral Point Tribune has just celebrated its fifty-fifth birthday. The paper is more vigorous than it was twenty-five years ago, and improves as all good papers should—with age. May the Tribune continue to prosper.

Secretary Gage may succeed Senator Mason. He would make an able representative, and Illinois will do well to secure his services.

Frank Peavey, the Minneapolis millionaire, who recently died in Chicago, leaves an estate of \$2,350,000. His will provides for old employees, and friends who helped him to a start in life.

Accidents on land and sea are still common. The new year does not appear to have accomplished much in the way of reform in this direction.

The library board should decide on a building plan, so that work may be commenced early in the season.

# **PRESS COMMENT.**

The real bitterness of the present controversy that exists in the republican ranks was put there by Governor La Follette, himself, in his message charging members of the legislature with having listened to improper influences in determining what kind of a primary election bill they would pass. Resolutions were passed refuting those charges, and there the matter stands. That the governor overstepped the prerogatives of his office in what he said is a matter of common belief, and it is probable if he had the work to do over he would use different language in addressing a co-ordinate branch of the state government.—Whitewater Gazette.

Dr. Peet of the Grantsburg Journal says he likes the governor's politics because he stands for something new and progressive. Yes, that's what Bryan stood for when he started the free silver craze, and where is the democratic party now? W. D. Howard went chasing after strange Gods when he stood for the Bennett Law, and he "didn't do a thing to the republican party."—Stanley Republican.

Hudson Star-Times: Close investigation has revealed the fact that the "coral roast" alleged to have been administered to General Miles by President Roosevelt was a very mild affair. It need not have been public at all, had the general stepped into the cabinet room as he was invited to do. There are mountains made of mole hills in public life.

Oshosh Northwestern: And now for another year of earnest thought and effort. And may Americans ever prove faithful to the high ideals of sobriety, morality, courage and business integrity which have succeeded in the past in placing this country among the foremost nations of the world.

Evening Wisconsin: There is delicate forethought in the plan to permit New York City saloons to open on Sundays from 1 to 11 p. m. That will permit the saloonkeepers to go to church in the morning, give them an hour for dinner, and let them open for business at 1 o'clock sharp in the afternoon.

Grant County Herald: When wireless telegraphy comes into general use reading of newspapers will be a thing of the past. All that will be necessary to get the news will be to wear a large copper hat pin and jerk the news from the atmosphere as it goes by.

Tomah Herald: Governor La Follette must learn that true leaders of men are those who lead—not force

men to higher things. And no matter how smart and clever a man may be, he is neither as smart nor as clever nor as wise as the majority of the people.

"Prohibition is an impudent fraud and an impudent failure." This explosion comes from Bishop Potter of New York. Listen intently, and you will catch the first faint ground swell of the mighty roar of a prohibition adjective for Bishop Potter.—Milwaukee Sentinel.

**A TREASONABLE REASON.**  
The all pervading argument advanced by the advocates of cut-throat politics in Wisconsin, for their selfish, but senseless opposition to the appointment of the Hon. Henry C. Payne as postmaster general, is that it is against the wishes of "the La Follette people."

And, if you please, who are "the La Follette people," that they are so supremely omnipotent in Wisconsin, and in Washington, that the wheels of government may not revolve for the general good, unless the cops, big and little, are composed of "our people?"

Who are they?  
Who is there in La Crosse who will now stand up and be counted in opposition to President Roosevelt's good judgment, and on the side of "our people?"

Who are these self-styled auto-crats of Imperialistic prejudices who are pledged to destroy everything in and out of Wisconsin that happens to run counter to the wishes of the Czar?

Is this the same outfit that bolted the nomination of Governor Scofield, that threatened to disrupt the party last winter; that has an unbroken record of repudiation against republican doctrines and republican practices?

Who will arise and be identified with this anti-Roosevelt, anti-Payne, anti-Spooner, anti-Quarles, anti-everything else incubus that is trying to foul the party of Spooner, and Rusk and Scofield in Wisconsin!—La Crosse Republican-Leader.

# **WISCONSIN'S CLAIM AGAINST UNCLE SAM**

The Bill as Footed Up by Judge Henry S. Comstock Will Reach the Sum of \$435,760.40.

Madison, Wis., Jan. 6.—(Special)—Wisconsin's war claim against the government, being the amount for which it has made no prior claim and now asks to be reimbursed, foots up \$435,760.40 as found by Judge Henry S. Comstock, special agent of the governor for the prosecution of these claims, and stated in his report made under the direction of the governor.

Wisconsin spent in arming, equipping and supplying the soldiers she furnished the government for the war of the rebellion \$1,059,162.03 for which it was reimbursed by the United States.

But in providing its war fund the legislature authorized three separate loans aggregating one million four hundred thousand dollars. To raise funds state bonds were sold at a discount, and the amount reimbursed by the government included none of the expense incurred by way of interest on the loans, nor the discount suffered on the sale of the bonds, the total of these aggregating \$135,760.40 for which the present claim is made.

# **IN THE VALLEY OF THE SHADOW**

Mrs. Martin Delaney Dead  
Mrs. Martin Delaney, seventy-three years of age, passed beyond this world of sorrow and trouble at her home, 305 Center street, at 11:30 o'clock last evening after a severe illness. Mrs. Delaney had been a resident of this city for many years and was highly respected and had many warm friends. She leaves to mourn her loss a husband, two daughters, Mrs. J. C. Morris and Miss Margaret Delaney and one son, John Delaney, who have the sympathy of the entire community. Notice of the funeral will be given later.

Funeral services will be held from St. Patrick's church Wednesday morning at 9:30 o'clock.

Death of Mrs. Jennie Brayton  
Word was received by relatives in

this city yesterday announcing the death of Mrs. Jennie Brayton, widow of Dr. Brayton, at her home in Chicago Saturday. Mr. and Mrs. Brayton were for many years highly respected residents of Footville and three brothers of Mrs. Brayton, Labo, Seth and Charles Fisher, still reside in this county. She leaves surviving her three sons, Frank V. Stanley M., and Paul Brayton, and one daughter, Miss Grace Brayton. The body will be taken to Footville Tuesday morning and from there to the Center church in the town of Center, where the funeral services will be held at 2 o'clock. The interment will be in the Center burying ground.

# **SEVERAL CHANGES IN TEACHING FORCE**

When the public schools opened this morning after the holiday vacation there were several changes in the teaching force. The resignations of Mrs. Burr W. Tolles, formerly Miss Louella Conroy, and Miss Nettie Kent, who has gone to De Funiac Springs, Fla., for the winter, made two vacancies. Miss Ada Brandt was transferred from the seventh grade at the Washington school to the eighth grade of the same school to fill Miss Kent's place; Miss Louise Shearer was transferred from the seventh grade at the Adams school to the seventh grade at the Washington school and Miss Inez Arr was elected to teach the seventh grade at the Adams school. Miss Lucy Akin has been elected to teach the fifth grade at the Lincoln school the position formerly held by Miss Conroy and in which Miss Marcella Jackman substituted last term.

Which the working man has fought for and succeeded in obtaining is something the wife has no share in. Her day begins before his and ends long after it, as a rule, and many a night her rest is broken by the baby's fretfulness. The healthiest woman must wear out under such a strain. What can be expected then of those women who are weakened by womanly diseases?

Women who are weak, worn-out and run-down will find new life and new strength in the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

Sick people are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and is held as confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I suffered with female weakness about eight years—tried several doctors but derived no benefit until I began using Dr. Pierce's Favorite Prescription," writes Mrs. John C. Gray of Danville, Boyle Co., Ky. "This medicine was recommended to me by other patients. I have taken six bottles and I feel like another person."

The dealer who offers a substitute for "Favorite Prescription" is only seeking to make the little more profit paid on the sale of less meritorious medicines. His profit is your loss. Refuse all substitutes.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

for women to think of this store when thinking of Cloaks as anything can be, and at present is a good time to think and act—

January finds our cloak department with a showing of new coats that would do credit to many stores at the beginning of a season, and whatever your idea of

garment is we have it. The after season reductions are now in force and to buy now means a great saving.

For misses and children we have a particularly attractive line and the same low prices prevail—in many cases this is half. All lengths are represented, from 24 to the 60 in. Newmarkets, and all suffer the price cut.

Winter Cloaks At a Dollar

Not this season's, but good, serviceable garments, which with slight alterations could be made to answer very well. For people who cannot afford to buy the more expensive coats this sale offers the opportunity to secure a good, warm coat at a next to nothing price. Many in the lot suitable for children's wear.

## FRANCIS MURPHY LEAGUE MEETING

MAGNIFICENT AUDIENCE IN THE Y. M. C. A. AUDITORIUM.

Addresses by F. A. Taylor, John M. Whitehead, and A. E. Matheson—A Fine Musical Program Was Also Rendered—It Was an Enthusiastic Gathering.

A rousing meeting of the Francis Murphy Temperance League was held at the Y. M. C. A. building yesterday afternoon at 3 o'clock, and a magnificent audience of men, women and children filled the large auditorium to its full capacity. It was a splendid meeting of the best that has ever been held under the auspices of the league, and everyone present seemed deeply impressed.

A. E. Matheson, president of the league, presided at the meeting in his usual efficient manner. Fred Holden read the Scripture lesson and J. C. Kline led in a fervent prayer for divine guidance and blessing. An interesting feature of the opening exercises was a recitation well given by Master Peters whose clear and pleasing soprano voice filled the large room easily.

The music for the meeting was unusually good. The Y. M. C. A. orchestra was present to play the accompaniments for the singing by the audience and the male quartet sang two numbers, "Lead, Kindly Light" and "Some Day the Silver Cord Will Break" delightfully. The quartet included E. A. Foley, of Milwaukee, E. E. VanPool, H. E. Carey and A. Crawford and the presence and singing of Mr. Foley, who was formerly a member of the quartet was a special delight.

The addresses were also excellent, the first one being by F. A. Taylor. In introducing him, Mr. Matheson said that ever since its organization the Murphy League has always found friends among the business men, some of whom do a great deal in a quiet and unostentatious way, both financially and personally, to help along the cause of temperance.

Mr. Taylor gave a plain and practical talk, taking a decided stand for the temperance movement and expressing himself as in favor of prohibition. Mr. Matheson then read a letter of greeting and good wishes for the Murphy League written to Dr. James Mills by Rev. E. H. Pence, of Detroit, after which Senator J. M. Whitehead made a brief address.

Mr. Whitehead spoke easily, eloquently and earnestly, as usual, and his remarks rang with encouragement and good cheer. He said he was glad to look into the faces of so many friends of the Murphy League. Evertime he thought of that marvelous and lovable man who came among us three years ago and started the league he felt grateful to him and to the men who had taken up his mission. He had come to the meeting to congratulate the men who had carried on the work with such fidelity and to ask them if it had.

Before closing Mr. Matheson referred to the fact that Mr. Whitehead had struck the keynote of hope and Mr. Taylor the keynote of good citizenship and he hoped these two thoughts would inspire the work of the league for the coming year.

## WEEK OF PRAYER IN THE CHURCHES

Outline of Programs by the Evangelical Societies During the Present Week.

Every year for more than half a century the evangelical churches have observed a week of prayer, generally the first week of the year. In accord with this custom this week has been appointed for special united prayer and it will be observed throughout the Christian world. The churches of this city will join in the observance and special services will be held at the Methodist, Presbyterian and Congregational churches.

At both the Court street, M. E. and the First M. E. churches, services will be held every evening except Saturday evening, beginning at 7:30 o'clock and lasting one hour. The M. E. church are as follows: Monday—True estimate of spiritual realities. Tuesday—The Holy Spirit, resisted, grieved, quenched. Wednesday—Missionaries, their preparation, call and support. Thursday—Family prayer. Friday—God's word studied and obeyed. This final service of the week will be a meeting for the organization of Bible classes.

No definite line of subjects has been planned for the week at the Court street church but the meetings will be practical. Tonight the Pentecost will be considered.

At the Presbyterian church there will be four services beginning tomorrow evening and continuing through Friday evening. The services will begin at 7:30 o'clock and will continue one hour, the following being the subjects: Tuesday—Humiliation and consecration. Wednesday—The Church and nation. Thursday—Christian missionaries. Friday—The family and the school.

There will be three services at the Congregational church, on Tuesday, Wednesday and Thursday evenings. The thought at the meetings which are to be consecutive in line of thought will be of personal religion. On Tuesday evening—the deepening life. On Wednesday—the true use of life and on Thursday—the rich life.

**THE FLORODORA'S SWARM INTO TOWN**  
Pretty Girls and Handsome Men Will Appear at the Myers Grand Tonight.

Shortly after one o'clock this afternoon Milwaukee street was the scene of a promenade by pretty maidens and distinguished looking gentlemen, all carrying small grips and witnessing the fact that the Florodora special had arrived in the city from Duquesne, Pa., via the C. M. & St. P. railway. Some of the company carried ice skates showing themselves ready at a moments notice for a few hours of out of door exercise before they join in the merry music and stage glitter which is to amuse a magnificent audience tonight.

The first objective point, however, for the members of the company after leaving the train was the Myers Grand and the box office was besieged with inquiries for mail. Several of the company made a hasty tour of investigation of the theater and one young woman returning from the theater was heard assuring some of the others who had not yet arrived at the play house that it was very nice indeed. Evidently the size of the city had made the company, which has been accustomed to large cities, dubious about the theater. The seat sale has been splendid and there are comparatively few good seats left. There are some, however, but those who want them would do well to secure them before 7 o'clock as the indications are that after that time the standing room only sign will be called into use.

## OF INTEREST TO FARMERS.

A few farmers will tire of improved machinery far harvesting and handling corn fodder when good crops of grain and hay come again. The old tired feeling will come on him just at a time when he feels that he must sell them, and they will be sold at a sacrifice. The day is not far distant when farmers will see the other side of the fodder problem and they will not cut fodder in order to bridge over a shortage in feed but it will be made the chief forage, and other kinds will be sold on markets wanting them. Why waste a large portion of the corn crop when it can easily be made a source of profit?

A friend writes me to know. In what proportions tar and linseed oil are mixed in order to make stock covers water proof, and to know the mixture will make the fibre rotten. There should be enough tar in the oil to give it body, but not enough to make it too thick for application with a brush. Linseed oil alone will make it water proof. The fibre is made weaker in either case and rents are easily made in them.

A low down wagon on the farm has come to stay, and the man who does not have one of them does not know what he is missing. Any wagon maker can make one of them out of an old wagon.

When politicians manage the sheep business it is in bad hands. Get a few sheep and let them plead their own cause. Listen to the sheep and let the politicians slide.

When every hen has to be her own stove it is all right and proper that she should be furnished the right kind of fuel if she is to lay eggs. The recent low temperature, hunted some of the best houses and stopped egg production. It is a low down trick to compel them to be her own stove without fuel, and have to stay in a cold, cheerless house at that.

The consumption of mule meat should be encouraged by managers of football teams so as to enhance their kicking qualities. If it were not for football we would not know what we have in some colleges.

So many well-to-do farmers have nice country homes and in some localities they are referred to as "country seats." A little city girl was reading of one of these places and she asked her brother what it meant. Having been in the country he very gravely told her that it was a milking stool. Being able to spend a good deal of time on a milking stool is what will eventually permit one to have a nice country seat.

The prosperity of the farmers is the foundation of all national prosperity. When he prospers the nation is in the same boat. The large land holder is not referred to in this, but the man who actually farms his farm or farms a rented farm. These are the men who make money and put it into circulation. The large land holder usually hoards or loans his money, but in these times he is not loaning much because no borrowers can be found.

In theory the plans of centralized schools lose about perfect. Sometimes practice will not bear out theory, however. We want the very best school system possible and will be satisfied with nothing less.

Before planting corn next spring it may be a good plan to give some study to the distance apart plants should be planted. The customary distance for planting corn is three feet and six inches. When corn is

so planted there are 3,556 hills to an acre. An average of two stalks to the hill will make 7,112 stalks or as many ears of corn. When hills are planted three feet apart there will be 1,440 hills to the acre, which, allowing two stalks to the hill, will make 2,880 stalks or as many ears. I believe three feet apart is plenty for corn rows. A better job of cultivating can be done, more hills will be required which will not necessitate so many stalks to the hill and the result will be a better yield. There may be difficulty on some farms where large horses are used for cultivating but that is not common. Large horses will spread out and walk on the rows of corn next the one being cultivated.

Everybody feels sorry for the man whose hat is two sizes too small for him. He is so lonesome and everybody has to get out of his way when he comes. He usually weighs a ton.

Attend all the Farmers' Institutes possible and learn all that can be learned. Take notes and ask questions. I have much respect for the questioner at a Farmers' Institute. He is the man who is trying to learn all about his vocation, and he will get there.

A garden on a farm is a very essential part of it, and there is no good reason why there should not be one on every farm. Those who have gardens and know how to get the most from them should send in their methods for the benefit of those with less experience. There is a way of laying out a garden that will involve very little hand labor. What is that way? There is a rotation by which garden stuff can be obtained all summer. What is that rotation? These are things we all want to know. Will some one tell us about it?

A lantern will "act up" sometimes when it is most needed. Sometimes the lantern is at fault and sometimes the owner is to blame. An old, dirty wick will cause very peculiar actions on the part of the lantern sometimes. Keep the wick clean, and keep the whole lantern clean.

The horse that is eating his head off—what are you going to do about it? Is he needed on the farm? If so, he had better eat his head off than eat the fat all off his ribs and have a skinny frame that will prevent him from doing spring work.

Between now and spring many farmers will be asking themselves the question of what they shall grow next year. Many will want to know whether they should sow spring wheat. If so, what kind of seed shall they get? There will be those who will be deterred from growing potatoes because of the scarcity of seed. It will be a good plan to spend some time from now until spring in debating these things in our minds.

The man who does not believe in giving animals plenty of bedding has the wrong impression of modern stock management.

Don't "nag" a horse when driving. Some people keep pulling and sawing on the lines constantly, or chirping to the horses or tapping them with a whip. All this is nagging them and they soon become accustomed to it and will pay no attention to intimations from line, whip or voice. A horse that has this kind of a driver thinks he is fooling with him all the time. They soon conclude that it does not mean anything.—Wisconsin Farmer.

 There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proved catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutionally curable on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. ## CONVALESCENCE

The Remedy That We Recommend To Be Taken After Sickness

Is Vinol, It Promotes Strength and Quick Recovery.

The worst part of being sick is the getting well. That is the time when patience is a virtue.

The sufferer cannot see from day to day that any strength is gained. The appetite is flimsy; the hours drag wearily and it seems that Nature would never be able to resume her natural course.

Nature finds hard work after the repairing process she has been going through to do much more without aid. She cries out for help. We know at such times Vinol is of great assistance.

We have posted ourselves concerning the scientific action that takes place when Vinol is taken into the system. We would be very glad to tell you what we have learned in this direction and how Vinol acts upon the body. We have in our experience had many opportunities to notice the result that has actually been accomplished where Vinol has been used. These results have always been satisfactory, often astounding even to us.

If you are getting well from any trouble try Vinol. You will sleep better; your appetite will improve, and, above all, that which you eat will more readily assimilate. It will be only a day or two before you will realize that your strength is increasing.

If anyone is skeptical we only ask one thing; that is, that such a one call on us and let us at least endeavor to convince him. Such a conversation cannot do anyone harm. Here is a letter concerning Vinol, from Mr. Isaac Champagnie of Keeno, N. H. He says:

"It is with great pleasure that I endorse Vinol. My little girl Cora, after a hard case of scarlet fever took it with the very best results. I do not believe she would ever have recovered if it had not been for Vinol, she was so weak. Now she is in the very best of health."

Remember we guarantee Vinol and always stand ready to refund to the purchaser the price paid for it if complete satisfaction is not given.

## DO NOT ABUSE YOUR WATCH

It Should Be Wound in the Morning  
Instead of at Night—Advice  
of a Jeweler.

"My watch had developed a most annoying irregularity," remarked a very business-like woman. It lost and gained by turns until I conceived the disagreeable impression of having paid a first-class price for a third-class article. Full of resentment I posted off to the dealer in chronometers from whom the watch had been purchased and accused him of having treated me unfairly. "He opened my timepiece," she continued, "and having examined its internal economy very closely, remarked: 'It's simply a case of unconscious cruelty to a faithful but sensitive friend.' These little workers that tirelessly tick along, even when their owners are asleep, are worthy of far better treatment than they receive. Fully 99 per cent. of the people who carry watches never give them a thought."

"Take, for instance, the simple process of winding a watch. There is a right and a wrong way of doing it. Whether it be by key or a stem, it should be wound in the morning. Turn slowly and avoid all jerky movements. The watch will then work best during the day, as the spring will exert its strongest traction power whereby the internal workings are reflected on the watch by your daily works and walks are fully counterbalanced. When a watch is wound at night it has only the weakened spring to offer as resistance to the jerks and jolts of the daytime. The morning winding also lessens the danger of breaking the mainspring, which, being no longer at full tension at night, can stand the cold better."

"All watches keep better time as the result of regular habits. Don't lay it down one night and hang it up the next. Keep it in the same position as nearly as circumstances will permit. In second-class watches the rate of difference between the horizontal and vertical position is often quite significant. Nor should you hang your watch on a nail where it can swing to and fro like a pendulum. It will either gain or lose a great deal while in that position."

"The difference in temperature between your breast or a man's waistcoat pocket and a wall that may be nearly at the freezing point is about 77 to 88 degrees Fahrenheit; and a watch should therefore never be suspended or laid against a cold surface. Sudden changes in the temperature of the atmosphere are the causes of most mainsprings breaking. The watch wearer should clean his or her pockets frequently, carefully brushing out all dust or fiber, for there was never a joining made tight enough to keep out all the dust. This gets into the oil which has thickened with time, and necessarily produces irregularity of rate. Even with the greatest care a watch should be cleaned once in eighteen months, and every year would be better. By this time the oil dries up and mixes with metallic dust. It grinds away on the works like emery. When I tell you that a watch ticks 388,000 times in one day, you can compute the gigantic task it performs in a year. Treat your watch reasonably and it will appreciate such care, and will serve you faithfully as a friend in need."—Washington Star.

**Farmhouse Made a County Seat.**  
Creighton, Neb., Jan. 6.—On the morning of April 1 the county officials of Knox County must open their offices on the farm of William Wisendoff, twelve miles from the nearest town, ten miles from the nearest railroad, and on the border of the Niobrara Indian reservation. Such is the order of the Supreme court of Nebraska, which has finally closed the county seat fight of twenty years by refusing to reconsider its decision. If a line is drawn from one corner of the county to the opposite corner, and another line drawn connecting the other two corners, the lines will intersect on the farm of William Wisendoff, and here is to be the town of Center, the future county seat of Knox County.

**Aged Woman Burns Alive.**  
Dallas, Tex., Jan. 6.—Mrs. John L. Mason, seventy years old, was burned to death at Waco in the presence of her husband, seventy-four years old, who had been a helpless invalid for ten years. Mr. and Mrs. Mason were in their home, without servants or relatives, the old man sitting in his invalid chair. His wife, in stirring the fire, had her clothing ignited and was at once covered with flames. Her husband, sitting a few feet from her, could not raise hand or foot to assist, and she died in terrible agony before his eyes.

A party of college students rushed in and rescued him.

**Three Trainmen Are Killed.**  
Atlanta, Ga., Jan. 6.—As the result of a head-on collision between two freight trains of the Southern railway early in the morning near Rex, Ga., fourteen miles from this place, three of the train crew were killed and a number of freight cars destroyed by fire. The dead: C. C. Wallace, engineer, Atlanta; Z. N. Harris, flagman, Jackson, Ga.; —, Prather, fireman. Engineer Whiteligh and Fireman Hicks of this city were slightly injured. The two trains met on a sharp curve, the derailed cars catching fire. The collision, it is said, was caused by a disregard of signals by the crew of one of the two trains.

**Woman Killed in Leaving Car.**  
Chicago, Jan. 6.—A young and fashionably dressed woman, whose identity the police have not established, met death last night by falling from a west-bound Madison street car at Elizabeth street. The woman, according to witnesses, halted the conductor at the crossing, but the train did not stop promptly, and she fell off the moving train and struck her head on the asphalt pavement.

**Loses Leg Under Engine.**  
Columbus, Ohio, Jan. 6.—While Charles Wilhelm, a Baltimore & Ohio engineer, was under his engine oiling it in the evening one of the hostlers, not knowing Wilhelm was beneath, pulled the throttle and started toward the yards with the engine. Wilhelm's right leg was cut off close to the body. Physicians say he cannot survive.

**Woolley Ends Tour Around World.**  
Chicago, Jan. 6.—That the world in general is advancing toward temperance is the belief of John G. Woolley, the Prohibition leader, who returned last night from a seven months' trip around the globe. His trip was taken for the purpose of studying the condition of the liquor traffic in foreign lands.

**Boers Ambush British, Killing 6.**  
Pretoria, Jan. 6.—The British had six killed and thirteen wounded in a battle at Brinkshorst Spruit Saturday, when the Boers ambushed a party of the Scots Greys.

**Foot Amputated by Train.**  
Watertown, N. Y., Jan. 6.—Joseph Knight, aged thirty-five, fell asleep under a railroad train, which started and ran off both his feet.

## Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up.

**Like Begets Like.**—driven from the surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

**SSS** cures Contagious Blood Poison in any and all stages; contains no mineral to break down your constitution; it is purely vegetable and the only blood purifier known that cleanses the blood and at the same time builds up the general health.

Our little book on contagious blood poison is the most complete and instructive ever issued; it not only tells all about this disease, but also how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

**LIVED ON ONE MEAL A DAY.**  
 Freacher Lived Forty Years on This Limited Diet.  
 Reading, Pa., Jan. 6.—It was a strange life led by the Rev. John J. Eberle, whose funeral took place yesterday at Pottstown. In early life he took up the study of chemistry. By over-application to books he became afflicted with extreme nervousness and indigestion. He was born in 1823, and in 1880 so completely was he worn out with stomach troubles that he determined to live on one meal a day, and to this he often said he owed his long life. He arose in the morning, and if he sat with his family at breakfast all he partook of was cold water. At the noon luncheon hour his meal again was water, and nothing else. He was jovial and pleasant, but took no food. On this water diet he continued at his study and his work. A lump of sugar would occasionally be added to his water. In the evening he partook of a light meal. Two hours later he retired, and slept soundly all night. He was fond of fruit at his meal. Before he began life on one meal a day Eberle had terrible headaches. After his one meal a day diet, which began July 14, 1860, his headaches passed away, never to return. He lived recently with his son-in-law in Pottstown.
